

# Setup SSL VPN

Ver. 3.0

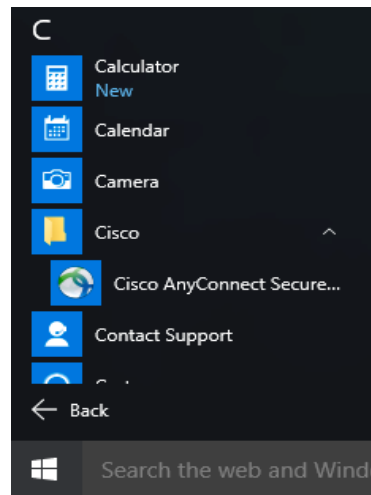

1. Click here to download the VPN client.

[Windows & Macintosh](#)

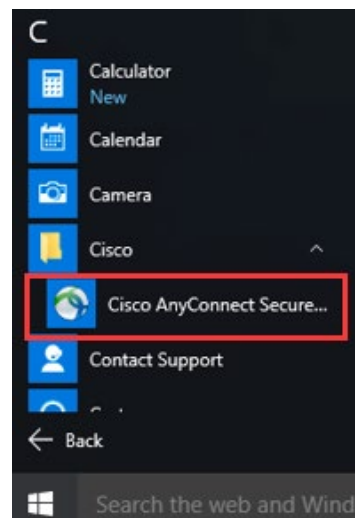

2. Install **Cisco AnyConnect**.

After installation, for Windows you will find a Cisco AnyConnect icon from the **Start Menu**, for Macintosh you will find it in **Launchpad**.

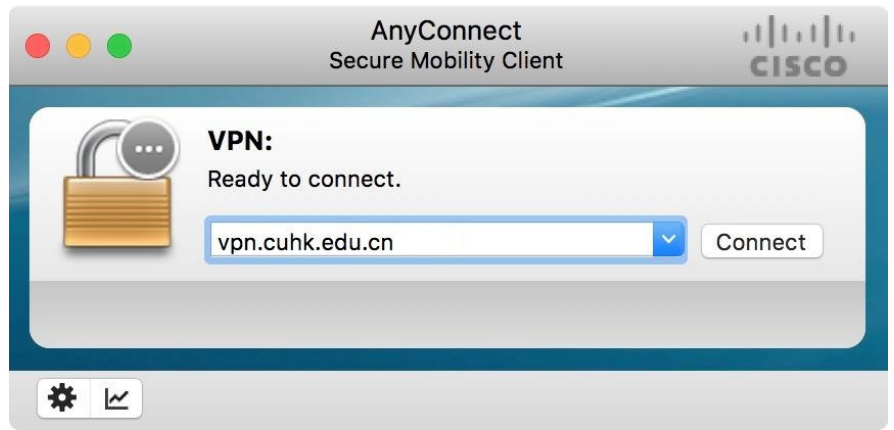

3. Find it and launch the **Cisco AnyConnect Secure Mobility Client**.

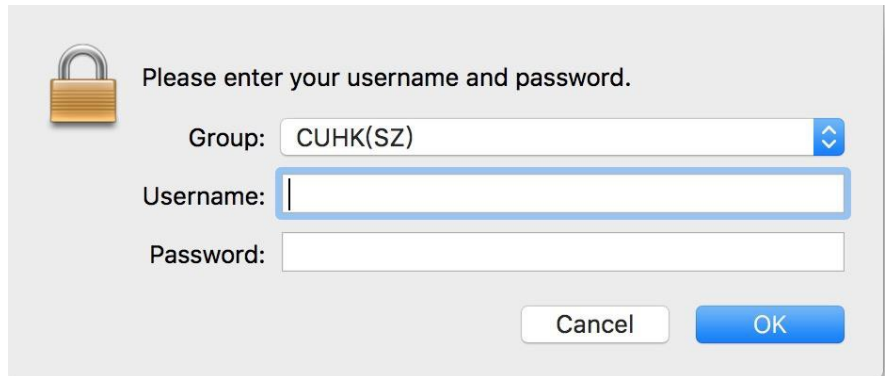

4. Enter server address:

vpn.cuhk.edu.cn, Click **Connect** to establish a secure VPN connection.

5. Input your CUHK(SZ) account and password.

Click **OK**.

6. Finish.
